

3Shape Navigate Program

3Shape Navigate program

1. WHY DIGITAL DENTISTRY IS A WIN FOR EVERY DENTIST!

Dr. Carlo Arcara discusses why digital workflows benefit his treatment quality and patients. He'll look at the practicalities and provide a peer perspective on the journey.

2. NAVIGATING THE INTRAORAL SCANNER MARKET

Dr. Ahmad Al-Hassiny is the Director of The Institute of Digital Dentistry. His insightful reviews of digital dentistry solutions garner thousands of online views. Get an unbiased look at the market.

3. 7 FACTS ABOUT INTRAORAL SCANNING

Get the facts about intraoral scanning from Dr. Barbara Jurim and 3Shape Product Specialist Morten Ryde, and how digital solutions can elevate your everyday workflows.

4. WORKING WITH YOUR LAB IS EASY WITH TRIOS

A key benefit of digital dentistry is improved communications and file sharing with lab partners. Dr. Zuber Bagasi and his lab talk about the workflow and how to get started.

5. PATIENTS LOVE IT – DIGITAL DENTISTRY MAKES PATIENTS SMILE

Digital dentistry enables professionals to share treatment proposals with patients not by using funny colored stone models, but with sharable images and videos. Dr. Aodhan Docherty discusses how this improves treatment acceptance.

6. LEARN, BUILD CONFIDENCE AND GROW WITH 3SHAPE TRIOS

Discover how 3Shape TRIOS users are supported by a network of experts and fellow professionals. From the 3Shape Academy and Community to YouTube channels and online study clubs: fellow professionals help you get to know the technology better.

7. HOW YOUR TRIOS CAN QUICKLY PAY FOR ITSELF

Dr. Mark McOmie did the math before he invested in an intraoral scanner. He'll share his formula for determining scanner value and share why he picked the brand he did.

Live Panel Session – Thursday 18th h. 19:00 CET, h. 11 AM PST, h. 02 PM EST

DIGITAL TRANSFORMATION IN ACTION

3Shape's own Rune Fisker is joined by a team of digital dental professionals discussing the good, the bad, and the teeth. Don't miss this lively and interactive discussion with Dr. Jonathan Ng, Dr. Ian Buckle, Dr. Karm Jandoo and Dr. Bong Koo.
